

SUPPORT FAMILIES RIDING TO SCHOOL, WHILST SINGING ALONG TO YOUR CAR TUNES.

- Recommended passing distance is 1.5m (from your wing mirror, not your coffee holder!)
- Always open your near car door using your far hand (a magic way to make you turn and look behind)
- Slow down and hang back (you also get to enjoy an extra minute in the car with your own gorgeous kids)
- Keep school entrances clear for safe drop off
- Overtaking: avoid on blind bends, & before junctions
- Be aware e-bikes may go faster than you expect
- Take care with van / station wagon doors: they are 'conveniently' head height & obscure the view ahead
- Update your knowledge of the Road Code, check out what it says about cycling
- Leave space for assertive riding e.g. riding tight to the curb can be dangerous
- Two abreast, especially with kid inside, is legal and safest
- Be predictable...
- Get your kids to wave encouragement from the back seat :)
